College Now Program

In partnership with LaGuardia Community College of the City University of New York, we offer students in 11th and 12th grade opportunities to take college courses at Newcomers High School. Students get high school credit as well as college credit when taking and passing these courses. The courses are free of charge, and have various pre-requisites for registration, including: passing the English Regents with a score of 75 or more. Students can only take one college now course per semester. For questions about this program please talk to Principal Sarmiento, school counselor Izaguirre or to Mr. Jackson, College Now Coordinator. The following are the courses we offer this semester:
